

## **GROUP WORK**

Barbara works with community and work groups to help them manage their interactions and activities. Groups operate effectively when each member is aware of and understands the role they play in achieving the goals of the group. The roles are categorised as follows:

- Task roles
- Socio-emotional roles
- Destructive Roles

Barbara can support people to understand the value of the roles they and others play in a group and provide them with the tools they need to adapt their roles as they change from one group to another.

Contact Barbara on 0429 155 743 or [chappell@aapt.net.au](mailto:chappell@aapt.net.au) to talk about tailoring a training session to meet your needs.
